SKID PAN USAGE RULES

No vehicle with a total weight exceeding 2000kg should be permitted on the skidpan surface at any time. This includes any and all client's vehicles, the water trucks or services / outside contractors' vehicles.

No aggressive treaded tyres may be used.

Water for use on the skid pan is for the account of the client. The client may either procure their own water and have it delivered, or may make use of WPMC water, which will then be billed for.

The entire drive-surface must be well wet. It is advisable to start wetting the surface at least 10 minutes before your session starts.

No sliding or skidding on dry surface permitted.

The minimum amount of water that should be used is 1 kilo-litre per hour of use.

Surface must be kept wet in all areas where and when driving takes place.

Dishwashing liquid may be applied in conjunction with water for extra slide, but this is to be supplied by the user at their discretion and for their account.

Water supplied by WPMC will be billed as quoted or as agreed to. Clients using the facilities water are liable for these costs.

There is a gate from Sati Road for access for large vehicles supplying water to clients who have wished to procure and supply their own.

For safety reasons, participants awaiting their turn are to wait, off the skid pan behind the wall.

I, (Full Name and Surname)

hereby acknowledge that I have read the terms and conditions encased in this document and agree to such.
